

Repurposed Pulleys

Pin Pulleys \$20.00

from dirty and thrown in a box to these - originally these were rope pulleys, we pulled all the metal hooks and washers off them, cleaned them up, felted the bottoms for furniture protection, added a 4cm wool felted ball, wrapped the "rope" spot in prim'd double-sided measuring twill tape, wrapped the wool ball in prim'd pom pom trim and then starting adding gourd and regular safety pins, mother of pearl buttons, glass head pins and a sparkly jewel pin just because and they measure 2" in diameter...

we "did" a specific number in each color and as soon as they are gone in that particular color - product will be retired.
